

## AVEA Local Union

### Welcome to the 2025-26 School Year!

*“This is not just a subscription! We Are Stronger Together”*

Greetings Members,

As we have embarked upon the 25-26 school year, I am filled with a sense of **excitement and pride**. Our journey so far has been a testament to our **resilience and dedication** as a team. We consistently demonstrated our unwavering commitment to nurturing young minds and creating an environment of learning, growth, and positivity.

We have not only endured but thrived through challenges, proving that our strength lies in our **unity as a union**. As we prepare to serve both familiar faces and new faces, I want to express my profound gratitude for your hard work. Your tireless efforts will continue to transform lives and shape futures, and for that, you have my deepest respect.

This year holds boundless potential for us to make an even greater impact. Let us approach it with open hearts and minds, eager to embrace change and innovation. Together, we will continue to adapt our teaching methods to suit the evolving needs of our students, employing creativity and compassion to ensure no one is left behind.

Remember, the future we shape is not a collection of individual successes, but a testament to our **collective efforts**. The union is here to support you, to share expertise, and to collaborate with you to overcome any hurdles that come our way. Together, we are a force to be reckoned with—a force that can turn challenges into opportunities and obstacles into stepping stones.

Thank you for being the pillars of our educational community. Your dedication is the cornerstone of our success, and I am honored to lead such an exceptional team.

In solidarity,

*Dr. Bradley-Gray*

EAS President
